

## 02 Typing Tutorial + Practice

Learning to type is an **optional** part of the computer course. The typing tutorials in this module are for those who would like to **learn** how to type, to **brush-up** on existing skills or to **practice** typing.

If you would like to learn how to type, we would recommend **practicing** 15-20 minutes.

If you would like to skip the typing tutorials, move to **03 Computers Simplified**.

### *Introduction*

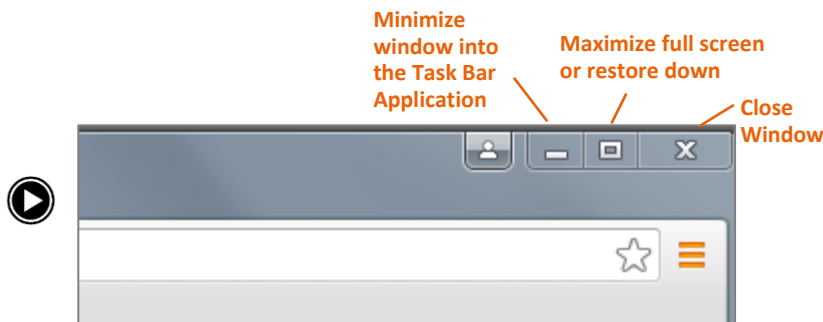

If you use a keyboard every day, you might not remember how difficult learning to type can be. Because the process of learning to type can be discouraging, this typing tutorial includes a coaching model that includes supportive feedback—and because everyone learns differently, there is an option to tone it down or turn it off.

Open the typing tutorial clicking the link below: (CTRL + click)  
[GCL - Typing Tutorial](#)

Note: If you would like to use this website at home or on another computer, the website address is: [gcflearnfree.org/typing/typing/1](http://gcflearnfree.org/typing/typing/1)

The typing tutorial webpage will pop up.

- Again, as with the last web page you opened, on the **top right corner** of the internet page, you will see the options to adjust your page - full screen, minimize and close. For this tutorial try viewing the page **full screen**.

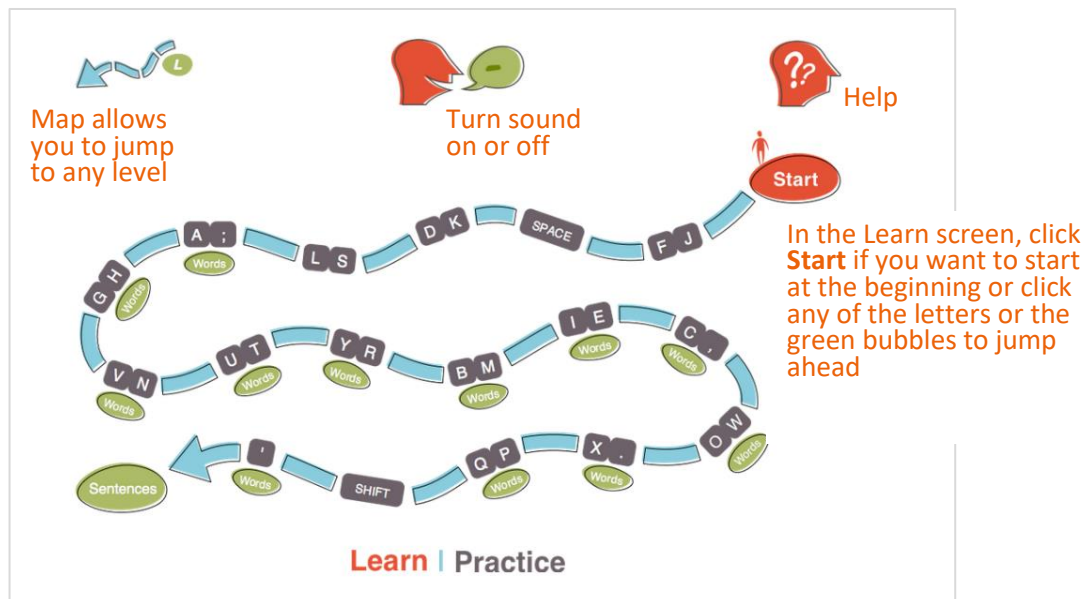

Click either **Practice** or **Learn**:

**Learn:** Learn to type.

**Practice:** Allows you to set what you would like to practice and the number of times you would like to practice it.

Options in the **Learn + Practice** screen.

If you don't like the GCL Typing Tutorial, here are some other typing websites to check out:
